Users can move the test run to the current group on the 'Move to' popup

Attach

Add a child issue

Link issue

Description

Pre-conditions:

1. Logged user opens the **Runs** page in the created project

2. Create a group (for example, with the title "Tests") and add a manual test run to it

3. Expand created group with the manual test run

4. Click the multi-select checkbox

Steps to reproduce:

1. Select the checkbox (true) for an added manual test run (from the **Test** group)

2. Click the "Move to" button

3. Select the current group for moving

4. Click the "Move" button

AR:

The system spends resources on re-transferring a manual test run from the current group to it

ER:

Display a warning message when the user moves a manual test run to the current group

⋮

Description

Pre-conditions:

1. Login to the Testomatio system (user should have a project)
2. Open project
3. Open the 'Tests' page
4. Click the "+" button in the upper right corner

Steps to reproduce:

1. Select the 'Suite' option
2. Enter 256 chars into the title
3. Click the 'Save' button
4. Notice that a test suite will be created

AR: The test suite title does not have a limit on the maximum field length

ER: The test suite cannot be created when the user enters >255 chars to the title

The 'Group Type' field displays its values on the group creation page when the user first opened it and did not click on the 'Group Type' field

Attach Add a child issue Link issue

Description

Pre-conditions:

1. Log in to Testomatio as the user with the created project
2. The user opens one project
3. The user opens the "Runs" page

Steps to reproduce:

1. Click the "New group" button
2. Notice that the Group by field has its values open. The user did not click on the "Group Type" field

AR: The Group Type field automatically displays its values on the "New Run Group" page when it is opened

ER: The "Group type" field should display all its values on the 'New Run Group' page only when the user clicks on it and the field will be empty
